**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose a competitive provider for internet ISP service and will continue to do so for as long as possible, because their level of service is much friendlier, more local, and more concerned than the larger providers can ever be.

Excellent fiber-optic service is key for me, and I much prefer fiber-optic high speed options be available through competitive local providers. I need reliable service that is not based on ever-increasing levels of EMF exposure, but that boost internet speed that I require for my business, which I operate from my home.
